Source: Based on International Energy Agency, [Monthly Electricity Statistics – Data up to September 2021 \(December 2021\)](#) (downloaded 16 December 2021). Modified by Renewable Energy Institute.

Notes:

- Net electricity generation.
- "Fossils" includes coal, oil and gas.
- "RE" (renewable energy) includes hydro, bioenergy & (renewable) waste, geothermal, wind, solar and other renewables (e.g. tide, wave, ocean... which are negligible and included in hydro).
- "Other" includes non-renewable waste and non-specified sources.
