Source: Based on International Energy Agency, Monthly Electricity Statistics - Data up to December 2022 (March 2023) [downloaded 17 March 2023]. Modified by Renewable Energy Institute.

Notes:

- Net electricity generation.
- "Fossils" includes coal, oil and gas.
- "RE" (renewable energy) includes hydro, bioenergy & (renewable) waste, geothermal, wind, solar and other renewables (e.g. tide, wave, ocean... which are negligible and included in hydro).
- "Other" includes non-renewable waste and non-specified sources.
